**Victoria Public Library Computers Unavailable**

The Victoria Public Library will be updating and conducting maintenance on the software that controls access to the public computers. During this process the public computers will be unavailable for use on Wednesday, June 2, 2010.

After the update patrons will access the library computers with their library card number instead of the card reader. This update is expected to improve access to the library's public computers.

For more information contact the Victoria Public Library at 485-3302.
