

City of Victoria

Sales Tax Revenue

Analysis Report

**May 2019 Sales Tax Receipts for
April 2019 Sales Tax Collections**

INTRODUCTION

The following reports will provide detailed analysis on the sales tax rebates received by the City of Victoria, which includes the actual receipts for both the City of Victoria's General Fund and the Victoria Sales Tax Development Corporation, from Fiscal Year 2016-2017 thru Fiscal Year 2018-2019 (year-to-date).

The City of Victoria (City) and CityBase.Net, Inc. (LFM) entered into a service agreement for Sales Tax Analysis and Reporting System (not software) during Fiscal Year 2016-2017. This service is a critical component of the overall revenue base; and, the revenue base of an organization needs to be continually evaluated for accuracy and performance. Left alone, there is almost a certainty that opportunities will be missed and errors will be introduced into a revenue system. There is not a revenue source with more significance, complexities, seasonal variations, economic fluctuations and constant changes as the sales tax revenue data. The purpose of these proposed and agreed upon services is to analyze and report confidential sales tax data for the City to better understand internal shifts in the sales tax base. The service provided by LFM will help the City recognize sales tax revenue vulnerabilities and to better explain current and historical data as well as to forecast future sales tax revenues.

The City provides LFM with monthly confidential sales tax data provided by the State Comptroller's Office. LFM prepares a detailed analysis and various reports from the confidential sales tax data, which contain various Industry Codes (sales tax data from various market categories), for the City. In turn, City staff reviews the detail analysis and various reports and condenses LFM detail analysis into twelve different sales tax categories, which accurately reflect / summarize the City's economic trends and status.

The State Comptroller Office uses the North American Industry Classification System (NAICS) to assign an industry code that indicates the general type of business operating in Texas. The NAICS is the standard code used by the State and Federal statistical agencies in classifying business establishments for collecting, analyzing, and publishing statistical data related to the State and U.S. business economy. As previously mentioned, staff has condensed the State Comptroller's NAICS industry codes into twelve different industry market categories; while the categorization of the data was subjective, the grouping of codes from one category to another should not materially affect the results of these reports. The following are the twelve market categories identified by staff with examples of the NAICS general market descriptors as well as relevant merchants that are currently reporting within each category:

1. **Arts, Amusements & Sports** – categories such as theaters, fitness and recreational sports centers, and golf courses (*Cinemark, Country Clubs, Gyms*)
2. **Construction** – categories such as plumbing, HVAC, electrical, and other general construction contractors (*Alamo Concrete, Ingram Readymix, Brannan Paving, Lauger Companies*)
3. **Finance, Insurance, & Leasing** – categories such as equipment rental & leasing, financial institutions, investments, and insurance companies (*United Rentals, Sunbelt Rentals, Netflix, Redbox*)
4. **Restaurants & Food Services** – categories such as restaurants or other food services contractors, and hotels (*Whataburger, McDonald's, Chick-Fil-A, Texas Roadhouse, Olive Garden*)
5. **Information, Publishing & Media** – categories such as cable programming, telecommunication, radio networks, and publishers (*AT&T, Sprint, T-Mobile, Verizon, Suddenlink*)
6. **Manufacturing & Warehousing** – categories such as machinery & equipment manufacturing and material manufacturing (*Holt Equipment, Mueller Supply, Superior Carports*)
7. **Oil & Gas** – categories such as drilling, oil & gas extraction, pipeline and mining (*MW Rentals, Baker Hughes/Petrolite, Quail Tools, Multi-Chem, Energy Transfer Partners/Sunoco*)
8. **Professional & Other Services** – categories such as general & administrative services, engineering, attorney, and repair and maintenance contractors (*Bugmobiles, Victoria Communications Services, Custom Tinting, Calvo's Janitorial*)
9. **Retail Trade** – categories such as automotive dealerships, clothing stores, building and general use supply stores, electronics stores, convenience stores, and gasoline stations (*Wal-Mart, Sam's Club, HEB, Lowe's, Home Depot, Academy*)
10. **Transportation** – categories such as ground transportation, motor vehicle towing, general freight trucking and transportation related to oil & gas (*UPS, FedEx, Allan's Wrecker, CW&A*)
11. **Utilities & Waste Management** – categories such as electric power & natural gas distribution & generation, sewage treatment & collection facilities and water supply & irrigation systems (*AEP, VEC, TXU Energy, Waste Management*)
12. **Wholesale Trade** – merchants classified as wholesalers of product (building, material, agricultural, manufacturing, motor vehicles and parts, and medical) (*Performance Food Group, Mid-Coast Electric, Ferguson Plumbing, Harbor Freight*)

EXECUTIVE SUMMARY

General Fund Sales Tax Revenue

The last ten fiscal years, sales tax revenue was the largest single revenue source for the General Fund, accounting for an average of approximately 34.6 percent of General Fund revenues; however, due to the past recession, sales tax revenue, which experienced a decline of 8.2 percent or \$1.1 million, became the second largest single revenue source for the General Fund in Fiscal Year 2010, trailing only ad valorem tax revenue.

Due primarily to the oil and gas industry activity, i.e. Eagle Ford Shale, the Fiscal Year 2011 sales tax revenue increased by 23.3 percent or \$2.8 million; and, Fiscal Year 2012 thru Fiscal Year 2015, the General Fund experienced an average annual growth rate of 5.3 percent. In Fiscal Year 2016, due to the lower oil/gas prices and Victoria's oil and natural gas industry contracting, i.e. Eagle Ford Shale, sales tax revenue decreased by 7.7 percent or \$1.4 million compared to Fiscal Year 2015. For Fiscal Year 2017, the General Fund sales tax revenue was below the Fiscal Year 2017 budget by 9.2 percent or \$1.49 million; and, below the Fiscal Year 2016 actuals by 11.1 percent or \$1.8 million. For Fiscal Year 2018, General Fund sales tax revenue was above the Fiscal Year 2018 budget by 15.2 percent or \$2.23 million; and, above the Fiscal Year 2017 actuals by 14.8 percent or \$2.17 million. The increase in Fiscal Year 2018 can be attributed to a combination of factors including continued growth in the economy from the recent downturn and indirect growth caused by Hurricane Harvey which increased construction and wholesale trade sales.

For Fiscal Year 2019, after eight months of collected sales tax receipts, General Fund sales tax revenue is above the Fiscal Year 2019 budget by 1.66 percent or \$185K; and, above the Fiscal Year 2018 actuals by 0.36 percent or \$41K for the same time frame.

Victoria Sales Tax Development Corporation Sales Tax Revenue

The last ten fiscal years, sales tax revenue has been the largest single revenue source for the Victoria Sales Tax Development Corporation (VSTDC), accounting for an average of approximately 88.9 percent of Victoria Sales Tax Corporation actual revenues. Prior to the 2010 recession, VSTDC experienced modest growth in its sales tax revenue; however, in Fiscal Year 2010, sales tax revenue declined by 8.2 percent or \$534K. In Fiscal Year 2011, sales tax revenue increased by 23.3 percent or \$1.4 million; and, Fiscal Year 2012 thru Fiscal Year 2015, VSTDC experienced an average annual growth rate of 5.3 percent; all due primarily to the oil and gas industry growth, i.e. Eagle Ford Shale activity. In Fiscal Year 2016, due to the lower oil/gas prices and Victoria's oil and natural gas industry contracting, i.e.

Eagle Ford Shale, sales tax revenue decreased by 7.7 percent or \$691K compared to Fiscal Year 2015. For Fiscal Year 2017, the VSTDC sales tax revenue was below the Fiscal Year 2017 budget by 8.9 percent or \$723K; and, below the Fiscal Year 2016 actuals by 11.1 percent or \$923K. For Fiscal Year 2018, VSTDC sales tax revenue was above the Fiscal Year 2018 budget by 13.4 percent or \$998K; and, above the Fiscal Year 2017 actuals by 14.8 percent or \$1.09 million. The increase in Fiscal Year 2018 can be attributed to a combination of factors including continued growth in the economy from the recent downturn and indirect growth caused by Hurricane Harvey which increased construction and wholesale trade sales.

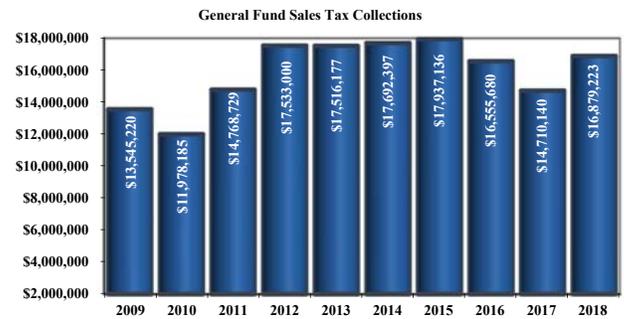

For Fiscal Year 2019, after eight months of collected sales tax receipts, VSTDC sales tax revenue is above the Fiscal Year 2019 budget by 0.91 percent or \$51K; and, above the Fiscal Year 2018 actuals by 0.36 percent or \$20K for the same time frame.

OVERALL

Prior to Fiscal Year 2016, sales tax revenue growth was primarily due to the oil and natural gas industry activity (i.e. Eagle Ford Shale), especially in Fiscal Year 2011 where the combined (City and VSTDC) sales tax revenue increased by 23.3 percent or \$4.2 million. However, as noted above, the Fiscal Year 2016 combined sales tax revenue decline of \$2.1 million and the combined sales tax revenue short-fall in Fiscal Year 2017 of \$2.2 million, the City's combined sales tax revenue declined by a net of \$4.3 million, erasing the original Fiscal Year 2011 sales tax revenue growth of \$4.2 million. Combined sales tax revenues rebounded in FY2018 with an increase of \$3.3 million over FY2017 or \$3.2 million over the FY2018 budgeted amount. The increase in Fiscal Year 2018 can be attributed to a combination of factors including continued growth in the economy from the recent downturn and indirect growth caused by Hurricane Harvey which increased construction and wholesale trade sales.

For Fiscal Year 2019 to date, the combined (City and VSTDC) sales tax revenue is above the Fiscal Year 2019 budget by 1.41 percent or \$236K.

In reviewing the attached Sales Tax Revenue Analysis Reports, you will note that the fluctuations in the oil and gas industry activity have a major influence in various sales tax revenue categories.

SALES TAX REVENUE ANALYSIS REPORT

The following pages include the following tables and related graphs:

1. **Monthly Sales Tax Revenue by Fiscal Year** – table includes sales tax receipts collected by month for Fiscal Year 2016-2017 thru Fiscal Year 2018-2019 along with Fiscal Year 2018-2019 monetary and percent variances, compared to Fiscal Year 2016-2017 and Fiscal Year 2017-2018.

After eight months of collected sales tax receipts, Fiscal Year 2018-2019 sales tax receipts are \$63K or 0.4 percent above and \$2.4 million or 16.2 percent above the Fiscal Year 2017-2018 and Fiscal Year 2016-2017, respectively.

2. **Year-to-Date Sales Tax Revenue by Category** – table includes year-to-date sales tax receipts, by market category, for Fiscal Year 2016-2017 thru Fiscal Year 2018-2019.

After eight months of collected sales tax receipts, the top two categories for Fiscal Year 2018-2019 (Retail Trade and Restaurants & Food Services 44.57% and 10.69%, respectively), account for 55.26% of sales tax revenue to date in Fiscal Year 2018-2019. For the same timeframe, the top two categories for Fiscal Year 2017-2018 were Retail Trade and Restaurants & Food Services, accounting for a total of sales tax revenue to date of 56.82%. For the same timeframe, the top two categories for Fiscal Year 2016-2017 were Retail Trade and Restaurants & Food Services, accounting for a total of sales tax revenue to date of 59.48%.

3. **Year-to-Date Sales Tax Revenue Comparison by Category & Fiscal Year** – table includes a comparison of Fiscal Year 2018-2019 year-to-date sales tax receipts, by market category, to Fiscal Year 2017-2018 and Fiscal Year 2016-2017 along with monetary and percent variances.

The following is a comparison of Fiscal Year 2018–2019 sales tax receipts to both Fiscal Year 2017-2018 and Fiscal Year 2016-2017 by category after eight months of collected sales tax receipts:

- The Fiscal Year 2018-2019 *Construction* sales tax revenue category is \$210K less than Fiscal Year 2017-2018 and \$109K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Finance/Insurance/Leasing* sales tax revenue category is \$94K greater than Fiscal Year 2017-2018 and \$180K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Professional & Other Services* sales tax revenue category is \$33K less than Fiscal Year 2017-2018 and \$112K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Restaurants & Food Services* sales tax revenue category is \$54K greater than Fiscal Year 2017-2018 and \$239K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Retail Trade* sales tax revenue category is \$284K less than Fiscal Year 2017-2018 and \$450K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Utilities & Waste Management* sales tax revenue category is \$22K less than Fiscal Year 2017-2018 and \$102K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Wholesale Trade* sales tax revenue category is \$49K less than Fiscal Year 2017-2018 and \$296K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Manufacturing & Warehousing* sales tax revenue category compared to Fiscal Year 2017-2018 and Fiscal Year 2016-2017 is greater by \$67K and \$256K, respectively;
- The Fiscal Year 2018-2019 *Oil & Gas* sales tax revenue category is \$396K greater than Fiscal Year 2017-2018 and \$554K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Arts/Amusements/Sports* sales tax revenue category is \$3K less than Fiscal Year 2017-2018 and \$7K greater than Fiscal Year 2016-2017;
- The Fiscal Year 2018-2019 *Information/Publishing/Media* sales tax revenue category compared to Fiscal Year 2017-2018 and Fiscal Year 2016-2017 is greater by \$54K and \$60K, respectively; and,
- The Fiscal Year 2018-2019 *Transportation* sales tax revenue category compared to Fiscal Year 2017-2018 and Fiscal Year 2016-2017 is lesser by \$2K and \$3K, respectively.

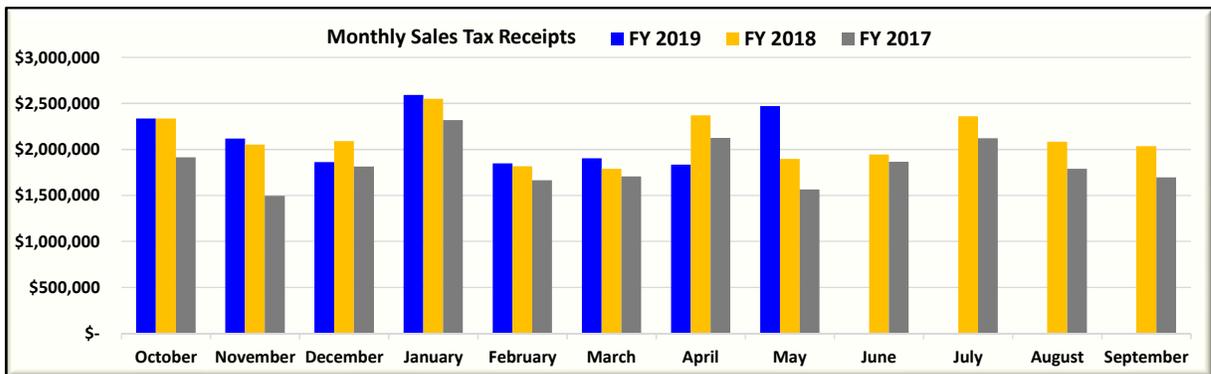

4. **City of Victoria Fiscal Year 2018-2019 Sales Tax Receipts Analysis** – table includes seven-year history (FY 2012 thru 2018) of sales tax receipts and Fiscal Year 2018-2019 budget and actual sales tax receipts, with monetary and percent variances, for the following:

- *City of Victoria General Fund*
- *Victoria Sales Tax Development Corporation (VSTDC)*
- *Combined – City of Victoria General Fund & VSTDC*

Monthly Sales Tax Revenue by Fiscal Year

The following table is a recap of the monthly sales tax receipts from Fiscal Year 2016-17 thru Fiscal Year 2018-19

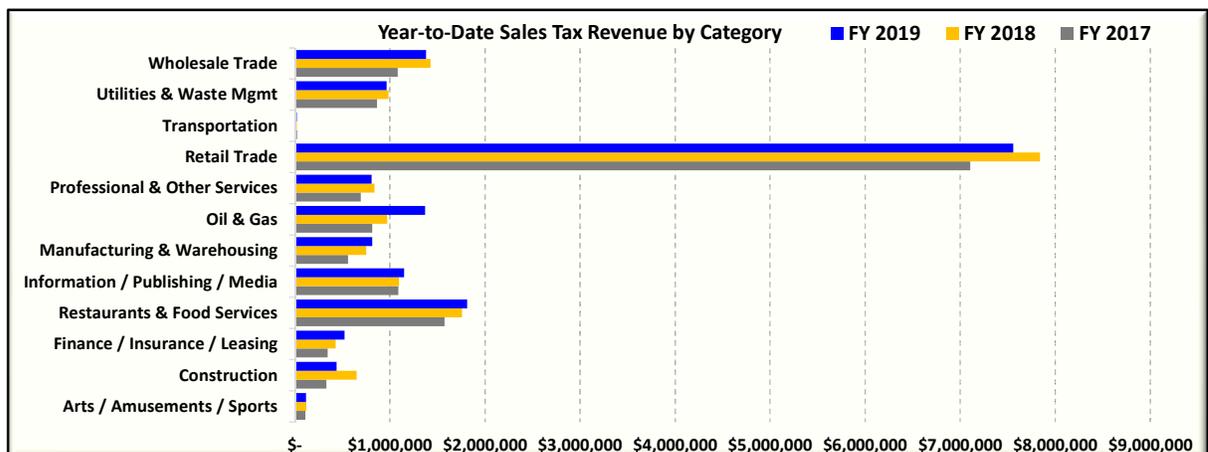

All Categories	Fiscal Year 2016-17	Fiscal Year 2017-18	Fiscal Year 2018-19	FY 19 vs. FY 18		FY 19 vs. FY 17

SALES TAX REVENUE ANALYSIS REPORT

The following pages include the *Monthly Sales Tax Revenue by Category and Fiscal Year* reports and related graphs. Each sales tax revenue category table includes monthly sales tax receipts for Fiscal Year 2016-2017 thru Fiscal Year 2018-2019 along with Fiscal Year 2018-2019 monetary and percent variances, compared to Fiscal Year 2017-2018 and Fiscal Year 2016-2017.

After eight months of sales tax receipts collected for Fiscal Year 2018-2019, the twelve sales tax revenue categories are reflecting the following variances, compared to Fiscal Year 2017-2018 and Fiscal Year 2016-2017, respectively.

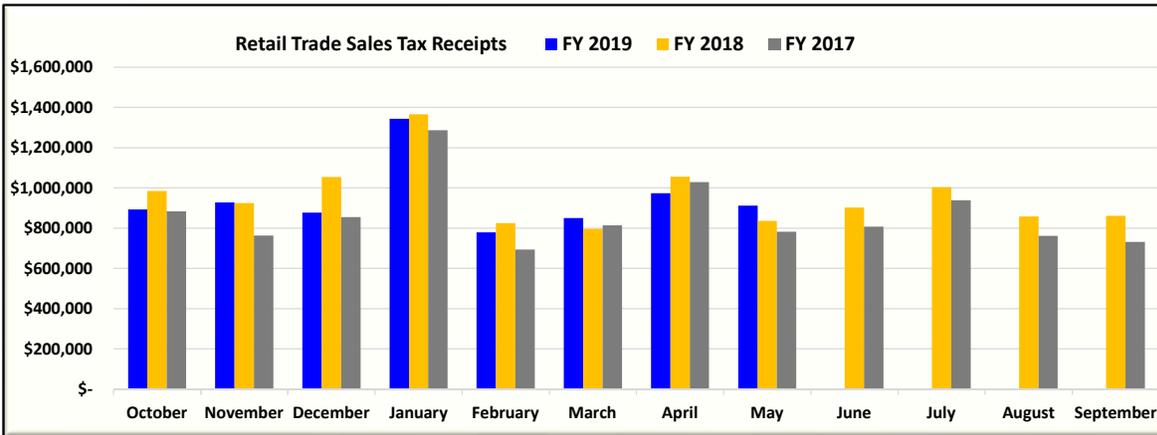

Each sector is listed below and shown on the following pages in descending order (largest sector to smallest sector).

1. **Retail Trade** sales tax revenue category is -\$284K or -3.6 percent and \$450K or 6.3 percent;
2. **Restaurants and Food Services** sales tax revenue category is \$54K or 3.1 percent and \$239K or 15.2 percent;
3. **Wholesale Trade** sales tax revenue category is -\$49K or -3.5 percent and \$296K or 27.4 percent;
4. **Information, Publishing & Media** sales tax revenue category is \$54K or 5.0 percent and \$60K or 5.5 percent;
5. **Utilities and Waste Management** sales tax revenue category is -\$49K or -3.5 percent and \$102K or 11.8 percent;
6. **Oil & Gas** sales tax revenue category is \$396K or 40.7 percent and \$554K or 68.0 percent;
7. **Professional & Other Services** sales tax revenue category is -\$33K or -3.9 percent and \$112K or 16.1 percent;
8. **Construction** sales tax revenue category is -\$211K or -32.4 percent and \$109K or 33.1 percent;
9. **Manufacturing and Warehousing** sales tax revenue category is \$67K or 8.9 percent and \$256K or 45.7 percent;
10. **Finance, Insurance & Leasing** sales tax revenue category is \$94K or 21.9 percent and \$180K or 52.4 percent;
11. **Arts, Amusements & Sports** sales tax revenue category is -\$3K or -2.11 percent and \$7K or 6.3 percent; and,
12. **Transportation** sales tax revenue category is -\$2K or -9.9 percent and -\$3K or -12.8 percent.

SALES TAX REVENUE ANALYSIS REPORT

The following pages include a *Twenty-five-year Rolling 12 Month Sales Tax Receipts History* for the State of Texas, Texas Municipal League Region 11 (Coastal Bend – Corpus Christi, which includes City of Victoria) and City of Victoria. Additionally, County of Victoria, City of Cuero, and City of Port Lavaca were included for comparison.

A Rolling 12 (R12) Monthly Trend Report is a valuable tool for any organization to use to track its progress and to show trends. Actual sales tax values are important for many reasons but do not lend well to forward looking trend analysis (i.e. growth, flattening or declining). The most valuable way to understand sales tax trends is to look at the R12 Monthly totals over a long period. Recessions can be spotted easily and in fact, you can see the very month that peaks end as well as when recoveries start. This is important as sales taxes received for the current month are based on actual business sales from two months earlier.

The Rolling 12-month report uses the running total of the values of the last 12 months. Each month, the indicator that is 13 months old is dropped from the total and the new month's value is added to determine the Current R12 value.

The Current R12 value (July 2018 to June 2019) is then compared to the same 12-month period one year prior to determine the Prior Year R12 value (July 2017 to June 2018). The change between the Current R12 and Prior Year R12 is the Current R12 percentage.

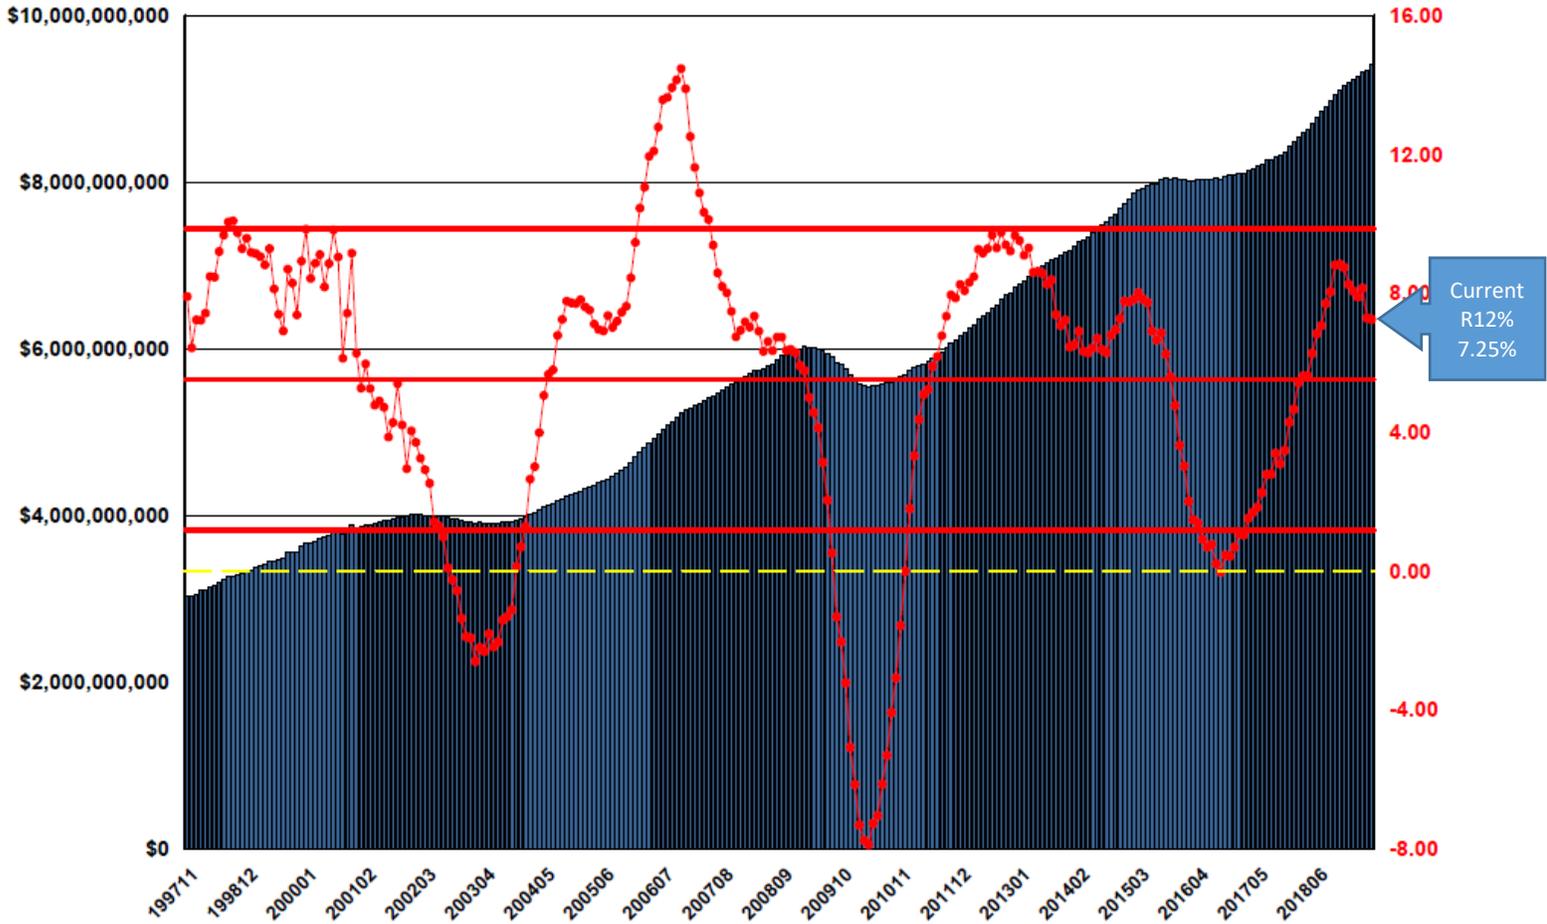

HIGHLIGHTS FOR TEXAS R12 – AS OF JUNE 2019:

- 1) Twenty-Five-Year R12 Monthly Sales Tax Collection History Report Trend for *State of Texas*:
 - The State of Texas is still experiencing increases in sales tax receipts year over year but at a slower rate than what had occurred throughout Fiscal Year 2018.
 - State's current R12 percentage is 7.25, **down** from May 2019's R12 percentage of 7.29.
